Consultancy Rules of IN RESTRUCT !

- Knowledge management: We do not use any ready-made solutions in the projects. We use the know how available in the companies and complement the missing knowledge modules.
- Our consultancy services are provided by generalists and highly specialised experts. Whose service is depending on requirement and field of specialisation.
- We have really great deal and for ages experience in management and transformation projects. This is brought in to relevant projects in an objective manner. Prompt, clear, neutral and if necessary, confidential.
- We have a high degree of efficiency management within IN RESTRUCT. The clients pay only for what they really need. Competent, prompt, efficient and cost-effective.
- Sustainability, efficiency, neutrality and confidentiality form the basis for every order.
- The ethical basis for the services to be delivered is borne by mutual respect, trust and understanding.
